**Cell:** U3

**Comment:** Conflict Risk Assessment

- 1) What are some potential conflict triggers that should be monitored in the next 3-6 months?
- 2) How would you assess the risk of an outbreak of violent conflict in the next 3-6 months from the medium-term triggers identified in the matrix?
- 3) Where do you see opportunities for EU action on the potential triggers (based on EU interests / leverage / capacities and current engagement)?
