

Instrument for Stability crisis preparedness component
Outline of 2011 Annual Action Programme (AAP)

Introduction:

- The 2011 AAP for the crisis preparedness component of the Instrument of Stability (IfS) –the “Peace-building Partnership” – **is currently under preparation**. It is **scheduled for adoption in May/June 2011**.
- The AAP 2011 **builds on the main aims of the IfS Strategy Paper 2007-2011 and the Indicative Programme 2009-2011**, specifically to strengthen the civilian capacity in international, regional and sub-regional organizations, state and non-state actors in preventing or mitigating crises and ensuring a more effective and coherent international response to crisis.
- In contrast to previous years, the 2011 AAP endeavours – to the extent possible - to **cluster** individual actions **on a thematic basis**, notably with regard to the proposed activities undertaken in co-operation with relevant EU Member State and UN bodies.
- It will finance actions which mobilize capacity in the peace-building target groups identified in the Strategy Paper, in the Indicative Programme(s) and in previous AAPs **up to a maximum of approximately €15 Million**.
